Clear Aligners

## Eclipse Smile Clear Aligners

Enjoy a straighter smile without the look of wired braces. Ask your doctor about Smart Smile Clear Aligners.

Clear aligners are proven technology that properly shift teeth using a series of thin, lightweight trays. Compared to wired braces with brackets, clear aligners are almost invisible to see. People even won't notice you're wearing them.

### TALK TO YOUR DENTIST ABOUT:

- How Smart Smile Clear Aligners can improve your smile and health.
- How long your treatment might take.
- How much your treatment will cost.

## HERE ARE THE FACTS

Crooked teeth causes extra stress on your jawbone and teeth which can cause:

- Food traps, bad breath and difficulty flossing
- Receding gums which leads to Parodontitis
- Chipping and wearing of tooth surfaces
- Jaw pain and Sleep apnea

Gap/Diastema - No. of aligners: 10 - Duration: 5 months

Space Reduction - No. of aligners: 12 - Duration: 6 months

Crossbite - No. of aligners: 14 - Duration: 7 months

Bite Correction - No. of aligners: 15 - Duration: 7.5 months

Crowding - No. of aligners: 28 - Duration: 14 months

## Straight Smile is a Healthy Smile

Not only will you look healthier but also feel the difference of a straight smile.

## Improved Hygiene

Straight teeth recuses plaque between teeth, decreasing the risk of tooth decay and gum disease.

## Safer Bite

Straight teeth lowers the risk of teeth chipping, breaking or wearing down. Aligners also decreases the stress on your jawbone.

## Healthier Gums

Straight teeth recuses the pockets between your gums and teeth, decreasing the space for bacteria which causes decay and bad breath.
